## Memorandum **City Manager's Office**

DATE: July 1, 2020

TO: City Commission & Mayor

Dana L. Muscott Jana J. Hussolt
City Manager FROM:

RE: Adopted 2020-21 Fiscal Year Budget

The City Commission adopted the 2020-2021 Fiscal Year (FY) budget on June 15, 2020. For the seventh year in a row, this budget provides a balanced General Fund; as a result of the efforts from the management staff of all city departments.

The coronavirus (COVID-19) pandemic presented staff with significant challenges in the preparation of the city budget. The challenges are the unknown, such as; when will the economy recover and stabilize? when will the City's workforce return to normal work schedules? and when will special events in the city return? The immediate known effects of COVID-19 have been incorporated in this budget, however, the potential long-term effects remain unknown and will become apparent over time. Therefore, this budget should be considered with the long-term ramifications in mind. As the FY21 unfolds, this budget may need to be amended with staff and commission poised and nimble to respond to changes needed in response to the long-term effects of COVID-19.

The Adopted FY21 general fund budget is fiscally conservative while continuing to provide our community with the level of service they have come to expect. This proposed budget continues to move the city forward by providing efficient local services.

Despite city property taxes still being significantly less in 2021 as compared to 2009, the city did experience a 4.65% increase in taxable value compared to the 2019 tax levy. The increased taxable value will generate an additional \$361,653 in property taxes compared to the 2020 budget.

The city is projecting a decrease in Shared Revenue from the State of Michigan. The State's projection of shared revenue for 2021 is \$288,751 less than the expected amount for 2020. This amount is \$605,598 less than was received from the State in 2009. This equates to an inflation adjusted reduction of 28.07% since 2009.

FY21 Proposed Budget July 1, 2020

The recommended FY21 general fund budget **does not** require the use of any funds from the city's reserves. In addition, as identified in our recently completed 2018/2019 audit, the city has been able to add more funds to the General Fund Reserve and it now stands at 21.8% of the amended 2018/2019 budget; which is over and above the City's General Fund policy to maintain between 15 and 20 percent. Although the State economy continues to slowly improve, our City continues to face significant fiscal challenges. However, due to the hard work and dedication of city staff, the recommended FY21 General Fund budget is balanced and the city's service programs and staffing levels will remain consistent. The city's current general fund Unassigned Fund Balance at June 30, 2019 was \$4,572,350.

The Commission's policy of maintaining between 15 and 20 percent of the previous years amended expenditure budget results in a desired fund balance level of between \$3,141,878 and \$4,189,171. The fund balance amount at June 30, 2019 was \$4,572,350, \$383,179 more than the 20% policy. While the amount of the increase expected at June 30, 2020 will probably be less than it was at June 30, 2019. It is expected that the general fund fund balance will increase at the end of the current fiscal year.

The Adopted FY21 general fund budget reflects the current projections from the State of Michigan regarding expected revenue sharing distributions for the remainder of FY20 and those of FY21. However, due to COVID-19, it is possible that these estimated distributions may be reduced. Accordingly, I am not recommending moving any excess (over 20%) of general fund fund balance to the public improvement fund (as had been recommended last year) in the event that general fund revenue sharing is reduced by the State of Michigan.

The Adopted FY21 general fund budget is \$20,538,441 which represents a decrease of \$41,180 from the approved FY20 general fund budget established at \$20,579,621. This decrease was primarily due to a reduction in Stated Shared Revenue Sharing and the required expenditure reductions.

The general fund includes an allocation of \$2,596,544 towards the retiree health care fund which represent 12.6% of the city's general fund. The general fund also includes a budget allocation of \$2,587,249 in pension benefits for the retired and soon to be retired employees that are still eligible for defined benefit retirements. Together the retirement health insurance and pension for active and retired employees will cost the city \$5,183,793 in the proposed FY21 budget. The city's total estimated future cost liability for retiree health insurance and pension is a combined \$221,765,751.

Public Act 202 of 2017 requires that all governments that sponsor a pension system or other postemployment benefits (OPEB) plan to report to the Department of Treasury the funding levels of the plan(s) that the government sponsors. The city's retiree health care trust (OPEB) plan was considered "underfunded" when the report was filed with the State of Michigan. The Application for Waiver and Plan which the commission approved on April 2, 2018 and subsequently approved by the State on December 27, 2018, detailed the various steps the city has taken to achieve a higher funding level in the OPEB plan. As a result of Public Act 202, the contributions and funding levels will be very important in future years.

As noted in the following chart the City's largest revenue source is property tax revenue collection which increased by \$361,653 from the FY20 budget. However, with this increase, the City's property tax revenues are still \$1,701,024 less than was received in 2009. This decline in the city's property tax revenue began in 2009 with significant revenues lost as a direct result of the Great Recession. Although modest, the City is finally experiencing increases in our property tax revenues.

	Total Change (2009	9-2020)	(1,701,024)

The total cumulative loss of \$22,383,414 represents the property tax dollars the city would have received over the thirteen-year period since the start of the Great Recession in 2009 if property tax revenue would have remained unchanged. During this time period the average residential property located in Bay City has experienced an actual decrease in their property tax bill (City portion of the tax bill) of \$50.91.

State of Michigan Shared Revenue is the second (2<sup>nd</sup>) largest revenue source for the general fund. This revenue has also decreased significantly since the beginning of the Great Recession.

The following chart illustrates how much State Revenue Sharing has been received (budgeted) by the city during the period of 2009-2021. Although the city has experienced significant increases in this revenue source since 2013, the city still receives significantly less than was received twelve years ago.

	Total C	hange (2009-2021)	(605,598)

Property Tax and Stated Shared Revenues together resulted in a loss for the City of \$31,857,715.

#### **Electric Utility**

The Electric Utility's budget will increase by \$1,365,491 which represents an overall expenditure increase of 3.4%.

The Payment in Lieu of Taxes (PILOT) payment from the Electric Utility is projected to be \$2,310,882. The PILOT was increased from 4% to 6% for the FY2018 budget which provided an increase in the general fund approximately equivalent to the cost of the streetlights that the general fund pays to the Electric Utility. The 6% will remain in this proposed budget.

#### **Water Utility**

The Water Utility will increase \$822,591 for a total proposed budget of \$11,311,351. This represents a 7.8% increase from the current year budget.

FY21 Proposed Budget July 1, 2020

As a member of the County Water Consortium, the city purchases approximately 33% of the water produced by the new Plant. As a direct result of switching to the new Plant, the city no longer produces water, it purchases water. The new fiscal year beginning July 1, 2020 marks the beginning of the fifth year that the city will purchase water from the Bay Area Water Treatment Plant (BAWTP).

A new rate of \$3.70/ccf proposed by the BAWTP and approved by the Consortium became effective January 1, 2020. The former rate was \$3.57/ccf, an increase of \$.13/ccf or 3.64%. The \$.13/ccf increase is an inflationary cost increase of the BAWTP. The approved budget reflects the increase of \$.13/ccf. The City Commission will be asked to approve a rate increase for this amount effective July 1, 2020. This rate change will increase the average monthly water bill by \$.91.

Under the new Transmission System, the city no longer receives payments for the use of the its transmission system. This effectively reduces the city's current revenue by approximately \$450,000 per year. The loss of revenue is partially offset by the BAWTP assuming all the outstanding debt on transmission assets as well as assuming control (and costs) for the city's water tower.

#### **Sewer Utility**

The Sewer Utility budget is proposed to decrease to \$14,855,034 from the \$14,911,028 approved FY2020 budget, a decrease of approximately .4%. No rate adjustment is being requested at this time for the Sewer Utility.

#### Refuse Collection Budget

Over the last several years, the Solid Waste Disposal program has consistently cost more to provide the services that what was being charge to residents for these services. In addition, rates had not been increased for many years.

The city began working with a consultant in late 2016 to review the entire operation of the Solid Waste Disposal program. The study resulted in the City lease-purchasing the former Waste Management transfer station located in Bay City and significant changes to previous collection and hauling practices. The rates were also increased over the next several years to accommodate the changes in costs and practices.

The City has possession of the transfer station site and has begun utilizing the equipment to prevent individual refuse trucks from having to carry trash to the landfill. In addition, there have been changes in the various policies and practices related to the solid waste program.

Earlier this year, a significant overhaul of the ordinance and amendments to the fee schedule were approved by the commission. A summary of the most notable ordinance changes include:

- Implementation of a commercial recycling rate and required use of city-issued recycling carts.
- Brush and yard waste collection clarifying and defining when and how brush and yard waste will be collected seasonally.
- Bulk item and refuse cart overflow Bulk items (those items larger than what can be placed in the city provided refuse container) will require a bulk item sticker in order to be collected and

- in an effort to diminish refuse cart overflow, all refuse must be contained in the city provided refuse container.
- The City is working to implement a public drop-off site that will allow for an alternate option to dispose of household refuse, building material, bulk items, extra refuse, and yard waste. The drop-off site will also include the opportunity to recycle some typically "hard-to-recycle" items, that are not currently part of recycling or solid waste collection.

The Solid Waste Disposal proposed budget for FY21 is \$3,357,252. This is an increase of \$202,650 from the FY20 budget primarily due to the increase in disposal and transporting costs of the refuse. Consistent with the rate structure approved in 2017, the monthly rate for each bin will increase from \$15.40 to \$15.90, an increase of \$.50/month for each bin; a 3.2% increase.

#### City Goals

Significant resources are allocated in this budget to continue working toward the goals set by the City Commission and approved at the commission meeting of March 2, 2020. Outlined below are some of the specific activities included in the budget that work toward these City Commission goals:

#### 1. Infrastructure

This budget includes significant funds for infrastructure including road improvement projects, major water and sewer utility projects, electric utility capital projects, as well as allocations that reflect departments moving into and utilizing the new building that will replace the current DPW and Electric Utility Service buildings.

#### 2. Housing/Residential/Neighborhood Issues

This budget continues funding for many of the provisions of the housing study including the continuation of the Vacant Building Registration program, blight improvements, and tightening of rental property inspections and review.

The city purchases all water that is sold to our customers from the Bay Area Water Treatment Plant. The increase charged by the BAWTP is approximate 3.6%. An increase of 1.85% in water rates has been projected in the Water Utility budget to reflect the increased cost.

No increase in sewer rates for FY21 is being requested.

#### 3. Miscellaneous Priorities

This General Fund budget is balanced with no anticipated or budgeted use of General Fund reserves.

#### **Conclusion:**

The Adopted FY21 General Fund budget continues the positive trajectory of the City. It includes significant funding for street improvements and infrastructure repairs and provides for enhancements in several city services.

I would like to thank the entire staff of the city for their cooperation in making the decisions which were necessary to again achieve the presentation of a balanced city budget for the review and approval of the City Commission.

# ENTERPRISE FUND FUND DEFINITION

Enterprise Funds are established to account for the financing of self-supporting municipal activities which render services on a user charge basis to the general public. The significant characteristic of an Enterprise Fund is that the accounting system allows for the determination of whether the activity is operated at a profit or loss. All accounts of Enterprise Funds are self-contained, providing a means for creditors, legislators, and the general public to evaluate the performance of the municipal enterprise on a comparable basis with investor-owned enterprises in the same industry.

# CITY OF BAY CITY 2020-2021 ADOPTED BUDGET SEWER PEAK PLANT OPERATING AND MAINTENANCE

#### **DEPARTMENT DESCRIPTION**

The operation of the Bay City WWTP emergency generator is critical to maintaining an acceptable level of service during power outages at the plant. Without back up power for extended period, the plant will not be able to provide services and could endanger public health. The generator will run all plant processes when normal power is lost, and will also provide extra power if needed to the City's Electric Department.

## FUDICIARY FUND DEFINITION

Fudiciary Funds are set up to account for the assets held by the government in a trustee capacity for other individuals, governmental entities, and non-public organizations. Use of these funds facilitates the discharge of responsibilities placed upon the City by virtue of law or other authority.

### CITY OF BAY CITY 2020-2021 ADOPTED BUDGET OAK RIDGE CEMETERY ENDOWMENT

### **DEPARTMENT DESCRIPTION**

The Cemetery Endowment account is funded from the sale of grave plots. Fifteen percent (15%) of all grave sales revenues are reserved in the account, and invested for the perpetual care and maintenance of the cemetery. Earnings generated by investments are used to defray operational expenses on an annual basis.
